

Eralp ÖZCAN

Full Stack Developer | Frontend Developer

✉ eralpozcan@gmail.com  eralpozcan  eralpozcan  www.eralpozcan.dev

 eralpozcan  eralpozcan  İstanbul

I'm currently a Full Stack Developer. I have been developing myself in the field of Frontend, Backend since 2021. Previously, I had an adventure in artificial intelligence and data analysis for 2 years. I enjoy working in the software field as I have transitioned from the automation field. Since I have the opportunity to work in many interdisciplinary fields, I can easily adapt. In my spare time, I like reading, playing the piano, traveling and exploring new places.

Professional Experience

Frontend Developer, TatilDükkanı 06/2024 – present
İstanbul, Turkey

- I'm developing on the TatilDukkanı project with Vue.js/Nuxt2.

- Vuex
- Vuetify
- Nuxt3
- Pinia

Node.js

- RestAPI
- MongoDB
- Postgresql
- Docker

Front-end

- HTML
- SCSS
- Javacript
- Tailwind

Organizations

Kodluyoruz, Master Assistant

- Master Assistant
- Mentor
- Bootcamp Acceleration Mentor
- Protein Full Stack Bootcamp Assistant (Vue.js)
- Gelecek Varlık Full Stack Bootcamp Assistant (React.js - .Net)

06/2021 – 09/2023
Turkey

Yapay Zekâ Araştırma İnisiyatifi, AI Researcher at Deep Learning Team

- Open-source Academic Research and Development Platform on AI Technologies

07/2020 – 08/2023

World Food Programme, Bootcamp Assistant

- React.js Bootcamp with the Kodluyoruz
- Flutter Bootcamp with the Kodluyoruz

06/2022 – 09/2022

Deep Learning Türkiye, Deep Learning Researcher

- Volunteer (December 2017- June 2020)
- Reinforcement Learning workgroup. (December-2018 -June 2019)

12/2017 – 06/2020

Projects

Commite, Project Founder

- Open Source Social Media For Developers
- Vue.js,Node.js,Socket.io

06/2022 – present

Reinforcement Learning Workgroup

- Multi-armed bandits workshop

07/2018 – 07/2019

ResistorNet-DirencNet, Researcher

- Creation of resistance data and classification by Deep Learning.
- I did the research and development part of the project.
- We created the data with Deep Learning Lab. members.
- Dataset is in Kaggle.

05/2018 – 06/2018

Publications

ResistorNet-DirencNet, IDSEW'18

- Creation of resistance data and classification by Deep Learning.
- I did the research and development part of the project.
- We created the data with Deep Learning Lab. members.
- Dataset is in Kaggle.
